

QUES 4 : Describe the best project you have worked on, including links if any

Github Link : <https://github.com/vb6539/car-e-rental>

This is an end to end application for renting car . It strives to provide affordable trust-worthy rental purchases through it's application.

Ques 5 : If you are to start a software company, name 2 people from your batch whom you will choose as your partner and why?

I will choose myself and my batchmate Anuj . It is because both of us have the ability to contribute and coordinate with team.
